

CBS Production Promotion

As you know, from Thursday, August 11 through Sunday, August 14, 2005, the CBS Production & Production Data Warehouse will be unavailable to users, so that the new Budget Enhancement Code can be promoted. This new software will have an impact on all of the Fund Management screens, which includes the BOP. This advisory is to alert you to the changes that you can expect the next time you log onto CFS.

FY 2005 BOPS

When the promotion of the Budget Enhancement is completed this weekend, new screens will be added to CFS. On Monday, August 15, there will be an additional set of FM060 thru FM066 and WF002 screens. For BOP users, the menu will display the following screens:

FM - Fund Management - Transactions

FM066 - Budget Operating Plan

FM066**h** - FY 2003-2005 Budget Operating Plan

WFM – Workflow Management

WF002 - Document Requiring Approval

WF002**h** - (Use through 30-Sep-2005) Document Requiring Approval

The new titles that contain “**h**” are for the existing BOP and Document Approval screens. They are to be used for the remainder of FY 2005:

FM066**h** - FY 2003-2005 Budget Operating Plan

WF002**h** - (Use through 30-Sep-2005) Document Requiring Approval

The existing titles are for the new screens for the BOP and Document Approval screens. They are to be used for FY 2006 and forward:

FM066 - Budget Operating Plan

WF002 - Document Requiring Approval

However, once the FM066**h** screen has been provided to you, the FM066 screen will be deactivated for all NOAA/BIS users.

Deactivating the BOP will prevent FY 2006 BOPs from being entered into the system until the FY 2006 Budget Appropriation is passed by Congress. This decision to delay entering FY 2006 BOPs into the system was made at the NOAA Business Rules meeting. Once our budget is passed, users will be notified when the FM066 is available.

Personal Favorites List on Menu Tree

If you have the BOP and WF002 screens listed in your Personal Favorites List, you will need to reselect the screen to add to your Favorite List because the old Favorite will be pointing to the new screen, which will be deactivated. To remove the screens from you Favorite List:

- Highlight the screen name.
- Right click to bring up the Pop-up
- Click on ***Favorite List*** to uncheck

To add the new screen to the Personal Favorites List:

- Navigate to the ***Funds Management*** menu
- Or*
- Navigate to the ***Workflow Management*** menu
- Click on ***Transaction***
- Highlight the screen name.
- Right click to bring up the Pop-up
- Click on ***Favorite List*** to check
